Dear Members of the Senate,

I am urging you to adopt SB22 to cut the state sales tax.

We are struggling. Inflation is through the roof, gas prices climb higher every day and my paycheck isn't changing for the better. My family purchases multiple pre-made meals on a weekly basis and the sales tax for those meals needs to be cut completely. Not to mention the increasing cost of groceries, we need a break.

I am urging all lawmakers to provide immediate tax relief to all CT families. Therefore, I FULLY support the passing of SB22.

Thank you,

Cheryl Leone
